-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement filed on June 16, 2006 has been received and the references listed thereon have been considered.

Abstract

3. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

4. The abstract of the disclosure is objected to because it is too long. Correction is required. See MPEP § 608.01(b).

Specification

5. The disclosure is objected to because of the following informalities:

The use of commas "," rather than periods "." in numerals throughout the specification is improper. Also, numeral 12 shown in Figure 3 is not described.

On page 3, line 18, it seems that "can be" should be changed to --can have a width a--; in line 33, "loosing" is improper.

Appropriate correction is required.

Claim Objections

6. Claims 1-10 are objected to because of the following informalities:

The use of commas "," rather than periods "." in numerals is improper.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

7. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are replete with vague and indefinite language and should be carefully reviewed. For example, in line 2, "within a number of teeth ..." is unclear as to what is being set forth; in lines 3-4, the recitation "a separate part of through a local addition of a surface lining material" is vague and indefinite as to what is being set forth; in line 5, "a tooth" is vague as to whether it refers to the teeth previously set forth or to

another such tooth; in line 9, "rotation-wise" is vague and indefinite as to what is being set forth; in lines 11-12, the recitation "and this maximum radius is maintained during at least" 55% in succession" is vague and indefinite as to what is being set forth; throughout the claims, the "preferably" or "i.e.," or "e.g." language or the like is vague and indefinite as to what is the scope of the claims.

Allowable Subject Matter

8. Claims 1-10, as understood, appear that they would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (571)272-4505. The examiner can normally be reached on Mondays, Tuesdays, Thursdays and Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Boyer D. Ashley can be reached on (571)272-4502. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
